

AMILA JAYASURIYA

OVERVIEW

Strong practical and theoretical experience with a variety of software. Extensive portfolio of projects worked on previously. Seeking to take the next step on the career ladder to gain further experience as a Software Engineer

FREELANCE WORK

Alongside a busy professional and academic life, I have developed a series of front-end software in my own time to further my knowledge and gain valuable experience.

- o Utilising Angular 8 for the web application and Ionic 4 for the mobile application, I built a system which enables users to put in ads.

- Working collaboratively with a friend to develop the backend, we sold the system to the Lions' Club for an annual subscription fee, and there are currently over 100 ads running on that system.

- o For Savoga Enterprises, I built a mobile alarm application which allows users to schedule alarms for both professional and personal use; and also contributed towards creating a new invoice system.

- o Further, I contributed towards an art e-commerce website for BrushTalk which facilitated a user-friendly and aesthetically pleasing experience for the customer.

- o In my personal time, in line with my own interests, I built a mobile application with a simple user interface for High Intensity Interval Training exercises.

- The user can input customised workouts, set timers, add notes to workouts, and plan further CrossFit, Tabata and HIIT workouts.

UNIVERSITY PROJECTS

1st Year Project: House renting e-commerce website

- o Technologies used – HTML 5, CSS, JavaScript, Bootstrap Framework, PHP, MySQL

2nd Year Project: Online hotel management system for ideacurl

- o Technologies used – HTML 5, CSS, AngularJS Framework, PHP, MySQL

2nd Year Project: customer service help desk

- o Technologies used – Java, MySQL, iReports

3rd Year Project: Hybrid mobile application

- o Technologies used – Angular 5, Firebase, DialogFlow, Google Maps, MapBox

4th Year Research: Dengue spread forecasting and dengue hotspot monitoring

- o Technologies used – Angular 5, Firebase, Leaflet

SKILLS

Expert knowledge of various programming languages, including:

- HTML
- CSS
- JavaScript
- JQuery
- TypeScript
- SQL

Excellent understanding and knowledge of frameworks and services within these languages, such as:

- Bootstrap
- Angular 2+
- Ionic
- NodeJs
- Firebase
- MySql
- Ms SQL Server

Working knowledge of numerous systems used within the industry, and both practical and theoretical experience of using them, including:

- Leaflet
- DialogFlow
- Docker
- Fullcalendar
- Git
- Azure DevOps
- Jira

Languages – English and Sinhala

HOBBIES AND INTERESTS

In my free time, I enjoy travelling, listening to music and reading.

During my time in Dharmaraja College Kandy, I was a member of the college boxing team, and participated in several island-wide inter-school matches.

I am also a member of the Cadet Eastern Band of the Dharmaraja College Kandy, playing the dhula.

I help the community whenever I can.

RELEVANT EXPERIENCE

Software Engineer, iDeacurl, 2020-present

In this role, I had a number of key responsibilities, but was mainly involved in:

- o Analysing user requirements
- o Writing and testing code, refining and rewriting it as necessary and communication with any programmers involved in the project
- o Fixing bugs

Associate Software Engineer, QualiApps Europe, Sri Lanka, 6 months from 2019-2020

Contributed to a variety of front-end development projects, gaining invaluable hands-on experience in the field.

- o Projects included:
 - Worked on a WordPress content migration project
 - Contributed to a chat application project using Angular, NodeJS and MongoDB
 - Assisted with an application which managed a Smart City utilising React JS
 - Used Angular to contribute to an application to manage appointments
 - Helped to create an internal application to manage tasks, again using Angular
- o Throughout the workplace, the Agile Process was practiced and strictly adhered to in order to provide quality products to the end customer.

Intern, QualiApps Europe, Sri Lanka, 6 months in 2019

Trained alongside senior software engineers and learned from their considerable knowledge the processes and systems involved in the day-to-day workplace.

EDUCATION AND QUALIFICATIONS

Sri Lanka Institute of Information Technology: BSc Special (Hons) in Information Technology Specialisation – Information Technology

2015: Dharmaraja College Kandy (GCE Advanced Level)

- o Combined Maths (S), Physics (S), Chemistry (S), General English (C)

2011: Dharmaraja College Kandy (GCE Ordinary Level)

- o Mathematics (A), Science (B), English (B), Sinhala (A)
